

# SPOTKANIA TRANSPORTOWE

## WELCOME

### for presentation in the special issue!

The *Transport Meetings Courier* (in Polish: Informator Spotkania Transportowe) is published due to Transport Meetings conferences. It is published twice a year, for the spring and for the autumn set of conferences.

The Courier will be sent together with invitations to participate in conferences, in 8 local mailings – separately for the area of each conference. The guide will be sent to transport companies also with the monthly TSL Biznes and will be added to welcome bags for the conference participants. In this way, the spring issue will reach up to 12 000 transport companies.

Get in touch with your prospects! Tell them about your products and services in the information! The Courier allows you even before the conferences to draw the attention of participants to your offer. It increases the chance to meet with your company at the conference stand.

We provide professional publication development and attractive prices.
